CAQI Twenty20 Pathway Update

Stage 3

3rd July 2020

On Tuesday 30 June 2020, Premier Anastacia Palaszczuk announced Stage 3 Easing of Restrictions to commence at 12 Noon on Friday 3rd July 2020. The broad basis for compliance contained within the CAQI Return to Qld Calisthenics Pathway Twenty20 document remains in place with specific restrictions eased as listed below. We highlight the need to continue compliance with DPPA & COVID Safe Industry Plans as well as the continued promotion and practice of social distancing, hand & respiratory hygiene, and environmental management and cleaning.

Number of Participants

- 1 person/2m² in venues less than 200sqm (up to total of 50)
- 1 person/4m² in venues more than 200sqm
- Numbers remain 1 person/4m² in non-training/performance indoor spaces (eg halls, waiting rooms)

Modifications to Training

- Contact within a training/performance space permitted, though socially distancing must remain at all other times (including participants, coaches, officials, spectators)

Facilities Use

- Canteens, change rooms, bathrooms, storage rooms and bars can re-open with management plans in line with social distancing practices and hygiene protocols of Industry Plan in place.

Attendance Records

- Recording of all attendees for a minimum of 56 days continues, though MUST include everyone now allowed on site with the easing of capacity restrictions, including all other non-essential attendees (eg. indoor officials and spectators)

Events

- All events can commence in line with attendance numbers advertised in the Roadmap Stage 3 (generally 50% or 4sqm/person - whichever is the greater - in concert venues, theatres and auditoriums)
- Events < 500 people - no approval needed when following COVID Safe Event Checklist:
https://www.covid19.qld.gov.au/__data/assets/pdf_file/0014/132701/covid-safe-event-checklist.pdf
- Events 500-10,000 people - need a COVID Safe Event Plan approved by local public health units.
